Important Update:
MAR Module Changes Coming Soon

Hi,

This is Fayonne, from Therap Services' Product Team!

Here at Therap, we are constantly looking for ways to innovate and optimize our system for enhanced use. For that reason, I am writing to you today to notify you of some of the upcoming changes to the MAR module.

On May 14th, 2023, we will be planning to make all MARs older than one month **read only**. This will be a **temporary** adjustment while we work on the application behind the scenes. During this time, you'll be able to view the old MARs, but no changes or edits can be made to a MAR created from March 2023 or older. April MARs can be edited, and there will be no impact to the current and future MARs.

We anticipate that this will take approximately 3 weeks to complete, after which all MARs created within the last six months will become editable.

Please feel free to write to us
if you have any comments or suggestions.

Fayonne Johnson

Assistant Director of Support, Interoperability
